

Women's Economic Empowerment

unicef  for every child

By Alan Benjamin Flores Hernandez
In partnership with UNICEF

Women's economic empowerment is central to realizing women's rights and gender equality. Women's economic empowerment includes women's ability to participate equally in existing markets; their access to and control over productive resources, access to decent work, control over their own time, lives and bodies; and increased voice, agency and meaningful participation in economic decision-making at all levels from the household to international institutions.

Legal framework on gender equality in employment per country (2018)
